OMTECH

MEP EXPERTS SINCE 2008

Our story of grit and glory

Founded in 2008, Omtech has built its reputation on engineering excellence, delivering MEP services for all sectors of construction. We operate as a single-source partner, providing end-to-end solutions that integrate seamlessly with other trades and ensure projects are delivered on time and within budget.

From large IT parks and industrial complexes to residential facilities, hospitals, and infrastructure projects, our dynamic and skilled MEP systems that are safe, efficient, compliant, and sustainable.

Our in-house fabrication and testing facility for GI/PPR pipework, cable trays, and ductwork ensures quality control and faster execution. We are also the first MEP projects that were developing Initiatives, budgets, and tailor-made solutions for clients.

CEO's Insistence - We meet all guidelines and norms with QCDS

Vision
To be recognized for excellence in MEP project delivery, setting benchmarks in quality, safety, and innovation.

Mission
To be a responsive and reliable partner, delivering sustainable MEP solutions that add value to every project.

Core Values
Our core values are built on Trust, Quality, Safety, Integrity, and Excellence. Trust is the foundation of our relationships with clients and partners. Quality is the benchmark for every project we undertake. Safety is the priority for our workforce and stakeholders. Integrity is the principle that guides our decisions and actions. Excellence is the standard we strive for in every project we undertake. These values are the driving force behind our success and are the reason why we are a trusted partner for many clients. Our values reflect our dedication to delivering projects that are safe, efficient, and sustainable. Our values are the foundation of our success and are the reason why we are a trusted partner for many clients.

20+ Years of Excellence

400+ Projects Delivered

100% Safety Record

200+ Years of Experts

5+ Cities Across India

Our core MEP Solutions

MEP Contracting Services

Turnkey MEP Solutions

Value Engineering & Design Support

EHS, audit, & Interim Facility Mgmt.

Gain the competitive advantage with Omtech

Single-point MEP partnership

In-house CPM approach & planning

Value engineering & cost optimization

20+ Years of excellence

Uncompromising safety & compliance
Safety is embedded in every stage of our work. We follow stringent EHS protocols, ISO standards, and a zero-accident philosophy to protect people, assets, and the environment.

100% Regulatory & statutory expertise
From CEIG approvals and panel services to inspections and documentation, Omtech manages complex statutory formalities ensuring that facility is fully compliant and safely operational on time.

400+ Zero-delay execution & rapid mobilization
With centralized planning and local supply chains, Omtech executes projects efficiently, minimizing supply bottlenecks and maximizing resource deployment.

Our MEP consulting philosophy

At Omtech, every project starts with engineering intent. Before execution, we focus on understanding operational needs. Only once the requirements are clear do we move into design and delivery.

Our consulting-led approach ensures that systems are not just installed but correctly commissioned, and efficient in delivery, but reliable and enhances throughout the life of the facility.

Our end-to-end turnkey MEP methodology

Design & Engineering Coordination

Procurement & Planning

On-Site Execution

Testing & Commissioning

Handover & Maintenance Support

Continuous Performance Optimization

MEP lifecycle responsibility

MEP systems are the backbone of any building. Omtech is responsible for the entire lifecycle of MEP systems, from the initial design stage to its disposal. We ensure that our systems are efficient, reliable, and sustainable, and that they meet the needs of our clients and the environment. We are committed to the highest standards of quality and safety in all our projects.

Governance, Compliance & Risk Management

Omtech operates under a strong governance framework aligned to regulatory, safety, and quality standards. From CEIG approvals to EHS compliance and ISO-aligned processes, we ensure every project is audit-ready and risk-mitigated. Our compliance-driven approach protects clients, assets, and timelines.

CSR at Omtech

At Omtech Electrical Solutions Pvt. Ltd., we believe that growth is meaningful only when it creates value for society and the environment. Guided by a strong sense of social responsibility, we are committed to contributing to the well-being of communities, the safe construction of essential infrastructure, and the conservation of natural resources.

Our Focus Areas

Education & Skill Development
We support initiatives that promote education and skill development, especially for underprivileged children and youth. Through scholarships, training programs, and awareness drives, we aim to empower individuals with knowledge and opportunities for a better future.

Health and Sanitation
We contribute to improving public and community health through sanitation facilities, awareness programs, and support for healthcare initiatives, particularly during disaster management and construction activities in remote or underserved areas.

Eco-Harmony & Animal Welfare
Omtech actively contributes to animal welfare by providing regular feeding support to stray animals in and around our project sites. We also collaborate with environment organizations to address broader sustainability needs and promote responsible practices across our operational areas.

Swachh Bharat Abhiyan
As a part of the Swachh Bharat Abhiyan, Omtech actively contributes to maintaining clean and hygienic work environment and surrounding site areas. We also engage with local communities to promote awareness and participate in cleanliness drives, demonstrating our commitment to environmental responsibility beyond building a cleaner and healthier nation.

Animal Shelter Upkeep
Omtech contributes to animal welfare by providing regular feeding support to stray animals in and around our project sites. We also collaborate with environment organizations to address broader sustainability needs and promote responsible practices across our operational areas.

Jaipur Relief
Omtech actively contributes to maintaining clean and hygienic work environment and surrounding site areas. We also engage with local communities to promote awareness and participate in cleanliness drives, demonstrating our commitment to environmental responsibility beyond building a cleaner and healthier nation.
